

CADCAM Solutions for Medical Applications

Delcam's Healthcare Division is focused upon providing the medical and healthcare markets with powerful, dedicated software solutions for assisting medical professionals.

By coupling Delcam's 40 years of CAD/CAM experience with expert knowledge from a panel of experienced medical partners the healthcare solutions are able to offer significant benefits to medical professionals, including:

- Increased accuracy
- Dedicated workflow
- Compressed process times
- Reduced medical and manufacturing costs
- Removal of unnecessary surgery/treatment
- Quicker recovery time
- Reduced manufacturing times
- Reduced customer/patient waiting times

Digital Dental Laboratory

The Delcam Dental CAD/CAM Solution is a computer aided 3D design module for the creation of fast and accurate dental restorations including simple and anatomical copings, crowns and bridge frameworks.

Digital Orthotic Laboratory

The Delcam Orthotic CAD/CAM Solution replaces the traditional messy and expensive foot casting process with a completely digital design and manufacture method for custom foot orthotics.

Digital Prosthetic Laboratory

The Delcam Maxillofacial CAD Solution removes the traditional invasive methods of casting and waxing up on the patient with the digital process of scanning and blending the donor shape on screen to export for Rapid Prototyping.

Orthopaedic implants

Delcam has vast experience of providing software solutions for the design and manufacture of mass produced and custom orthotic implants.

Delcam's Healthcare Workflow Manager

Delcam's workflow solution holds all the information created throughout the complete lifecycle of an order together and provides full visibility and traceability of everything that is going on from creation through to delivery.

Delcam is one of the world's leading suppliers of advanced CAD/CAM software solutions for product development in manufacturing.

The company has grown steadily since being founded in 1977 after initial development work at Cambridge University, UK. It is now the largest developer of product design and manufacturing software in the UK with local subsidiaries in North America, Europe and Asia. Delcam's software is used by more than 30,000 organisations in over 80 countries.
